

Übung	<b>Small talk conversation</b>	
-------	--------------------------------	---

Tom Parker is an apprentice in IT administration for Taxpro, a small tax consultancy company in Malta.

There are **two/three visitors** coming to Taxpro for a meeting. Tom has been asked to pick them up **at the station in the city center**, after having arrived on the island by **airplane**. Tom **walks** with them to his company, which is about a **10 minute walk through Valetta**.

Prepare a small talk conversation between the people in group work.

- Toms welcomes everyone. As they have never met before, there are introductions.
- Include at least three topics suitable for small talk conversation. (Each topic should consist of at least one question/remark and two replies).
- The conversation should be natural and adequate. It has to make sense. You are free to choose the topics, exact characters and details of the setting (e.g. city).
- At the end, transition to the business context (meeting, arriving at the building etc.)
- Present your conversation to the class.
